The following is the introduction of high quality 4K/5K M12 Lens, hoping to help you better understand 4K/5K M12 Lens.

4K/5K M12 Lens Specification

Focal Length:	2.8mm
Resolution:	16MP
Max image:	Φ8.0mm
Format:	1/2.3"
Mount:	M12 mount
F/No:	F2.5
Back Focus:	4.58mm

FFL:	4.08mm			
Relative illumination:	>60%			
CRA:	<15°			
Angle of View:		1/2.3"	1/2.5"	1/3"
	D (°)	150	140	120
	H (°)	123	123.7	96
	V (°)	93	71.2	73
Optical Distortion:	<62.9% (D)			
Lens Construction:	6G1M			
TTL :	24mm			
Operating Temperature:	-20°C - 70°C			
Storage Temperature:	-40°C - 85°C			
Model:	ACDCV1622C			

Packing & Delivery

Company Profile

Founded in 2016, the company is located in Shanghai Jiading Industrial Park. Specializing in the production and sales of all kinds of surveillance camera lenses, optical lenses and lenses, with an annual output value of 70million yuan. The core team comes from domestic large-scale optical enterprises such as phoenix optics Co., Ltd., a leading enterprise in the industry. The company has rich experience in production, processing and technology research and development, as well as good industry resources. At present, the company's core products are mainly concentrated in the field of video surveillance equipment and medical endoscopes. Among them, in the field of medical endoscope, the company has initially established a brand image and become a leading enterprise in the subdivided field. The company has a perfect quality system and has passed ISO9001:2008 certification and ISO14000 environmental system certification to ensure product quality. There are 10000 level dust-free purification workshops for injection molding, lens assembly, coating, etc, The injection molding workshop has Sumitomo and Fanuc optical injection molding machines, peripheral equipment and testing equipment imported from Japan. At present, the maximum production capacity of the company's production line is planned and designed to be 3.5 million lenses / month. With the continuous expansion of the company's business, a new factory has been built in the high tech Zone of Yushan County, Shangrao City, Jiangxi Province, raising the company's maximum production capacity to 10million lenses per month. As a professional optical enterprise, it can

www.lensmanufacture.com

produce various types and models of lenses according to customer needs, including three main product systems:
